**7744/64 3rd floor Fasih Building**  
**Roshanara Road near Clock Tower**  
**Delhi - 110007**  
**Phone: +91 96545719711**

## PROFILE

---

I am a third year B.tech student, proficient in developing android applications. I have done my internship at DPD Technologies LLP where I have learned about software testing and working on live projects. I have developed my ability to work in a team there. Excellent understanding of programming language and having good communication, interpersonal, and project management skills is what makes me stand out and proves me a right candidate. I am passionate to learn and get experience in every way possible.

## EXPERIENCE

---

### SOFTWARE TESTING INTERN

#### DPD Technologies LLP (Nov ,2017 - Feb, 2018)

- Tested their software "queuebuster" (android and web version)
- Build an automatic testing tool for their software (android version) using appium and selenium .

**Result : 92.30%**

## PROJECTS

---

- **ENTERTAINMENT ADDA:** This application is a collection of Movies and TV shows. It displays the information like genre, cast, synopsis, trailer, etc of the selected movie or show. The application lets you add the movies and TV shows to your favourites and also allows you to share it over social media with your friends.
